"And she--what?--She adopted her sister's baby?". Although to Paul this was no more than childish chatter, Tom knew at once that the girl referred to his explanation for why he wasn't sad about his damaged face:

the salt and pepper shakers representing two Toms, the hit-and-run rhinoceros, the different worlds all in one place. "Yes, Angel. That's something like what I was talking about." "Yes, I was." She didn't tell him that her fear had not been allayed by his assurances or by his second walk in the rain. "Me, I don't like anything old. This White chick's got a weird thing for old people, old buildings, old stuff in general. Like she doesn't realize she's young. You want to grab her, shake her, and say, 'Hey, let's move on,' you know?". She thought that she already knew all about humility, about the necessity of it, about the power of it to bring peace of mind and to heal the heart, but in the following few minutes, she learned more about humility than she had ever known before. Artificial eyes were on order. He would soon return to Newport Beach for a third fitting before implant. They weren't glass, as commonly believed, but thin plastic shells that fit neatly behind the eyelids in the cavities left after surgery. On the inner surface of the transparent artificial cornea, the artificial iris would be skillfully hand-painted, and movement of the ocular prosthesis could be achieved by attaching the eye-moving muscles to the conjunctiva. The dining table could accommodate six, and Agnes instructed Maria to set two places on each of the long sides, leaving the ends unused. "It'll be cozier if we all sit across from one another." From serviceway to alley to serviceway to street, into the city and the fog and the night, Junior ran from the Cain past into the Pinchbeck future. Their struggle to put their sorrow into words moved Agnes not because they cared so deeply, but because in the end they were unable to express themselves adequately. Without the relief provided by expression, their anguish grew corrosive. Their lifelong introversion left them without the social skills to unburden themselves or to provide solace to others. Worse, their obsessions with death, in all its many means and mechanisms, had prepared them to expect Barty's cancer, which left them neither shocked nor capable of consolation, but merely resigned. Ultimately, in great frustration, each twin was reduced to fragmented sentences, crippled gestures, quiet tears-and Agnes became the only consoler. As was true of the entire house, the bedroom was immaculate. The wood floor gleamed as though polished by hand. A simple white chenille spread conformed to the bed as smoothly and tautly as the top blanket tucked around a soldier's barracks bunk. If he had been any other three-year-old, she would have told a compassionate lie. He was her miracle child, however, her prodigy, and he would know a lie for what it was. He had visited the library primarily to confirm that Harrison White was unquestionably dead. He'd shot the man four times. Two bullets in the gas tank of the stolen Pontiac destroyed the parsonage and should have incinerated the reverend. When you were dealing with black magic, however, you could never be too cautious. Lifted from his despair by this exhilarating wrath, Junior turned away from the mirror, looking for the bright side once more. Perhaps it was the bathroom window. Grace, having just finished washing a sinkful of dishes, stood monitoring the application of the icing and drying her hands, when the telephone rang. She picked it up, and as she said, "Hello," the front of the house exploded. One, two, three, four-Edom took away all the remaining pies. He pointed at Barty and then at the empty table. She refused to look at him, the way her mother had refused to look at him when he'd been making love to her in the parsonage. She began twisting a red pencil in a handheld sharpener, making sure that the shavings fell into a can kept for that purpose. "I saw it here." In reaction to a terrible sense of weightlessness, Agnes's two-fisted grip on the steering wheel grew so tight her hands ached. She held on with all her strength, as if at real risk of floating out of the car and up toward the source of the raveling skeins of rain. Il. Otter. Paul pulled her back. He gently but firmly thrust her through the open door of the guest room in which he'd spent the night. "Stay here, wait." Looking toward the nearest window, where the wet night kissed the glass, he said, "Lawn sprinklers?". This declaration was received seriously by Edom and Jacob, as if the devil often strolled the streets of Bright Beach and from time had been known to snatch little babies from their mothers' and eat them with mustard. "Yes, but it's a Catholic hospital, and they offer this option to all unwed mothers-doesn't matter what their religion." Only two explanations occurred to him. First, bureaucracies slavishly follow the rules even when the rules make no sense. Second, the Ugliest Private Detective in the World, Nolly Wulfstan, was an incompetent dunce. After a day of work, the pencil portrait of Nella Lombardi was finished. The second piece in the series-an extrapolation of her appearance at age sixty-was begun. Perhaps this particular worry was not ordinary maternal concern. If a sixth sense is at work in all of us, then perhaps subconsciously Apes was aware of the tragedy to come: the tumors, the surgery, the blindness.
