Some instinct told me that medical malpractice suits might interest both but would nevertheless not be a useful topic. I spoke on genetic engineering instead, therefore, and, toward the end, discussed the matter of cloning. . . . Yet cloning would not be totally useless, either. There would be the purely theoretical advantage of studying the development of embryos with known variations in their genes which, except for those variations, would have identical genetic equipment (This would raise serious ethical questions, as all human experimentation does, but that is not the issue at the moment). The lamps were low, the jailor was huddled asleep in a corner on a piece of grey canvas, but Amos went immediately to the bars and looked through..I know it's painful to be told that something in which one has invested intense emotion is not only bad art but bad for you, not only bad for you but ridiculous. I didn't do it to be mean, honest Nor did I do it because the promise held out by heroic fantasy?the promise of escape into a wonderful Other world?is one I find temperamentally unappealing. On the contrary. It's because I understand the intensity of the demand so well (having spent my twenties reading Eddison and Tolkien; I even adapted The Hobbit for the stage) that I also understand the absolute impossibility of ever fulfilling that demand. The current popularity of heroic fantasy scares me; I believe it to be a symptom of political and cultural reaction due to economic depression. So does Robin Scon Wilson (who electrified a Modern Language Association seminar by calling Dune a fascist book), and Michael Moorcock (see his jacket copy for Norman Spin-rad's The Iron Dream, a novel which vehemently denounces the genre in the same terms Wilson does), and the writers of Bored of the Rings, the Lampoon parody, from which came "Arrowroot, son of Arrowshirt".song she always tops her concerts with, the number that really made her.. He never told me anything that would connect him to nine deaths, mostly about where he'd been, things he'd read. He read a lot, just about anything he could get his hands on. I got the impression he hadn't really lived Me so much as he'd read it, that all the things he knew about had never physically affected him. He was like an insulated island. Life flowed around him but never touched him, I wondered if the hump on his back made that much difference, if it made him such a green monkey he'd had to retreat into his insular existence. Practically everyone I had talked to liked him, mixed with varying portions of pity, to be sure, but liking nevertheless. Harry Spinner liked him, but had discovered something "peculiar" about him. Birdie Pawlowicz, Maurice Mitian, David Fowler, Lorraine Nesbitt, they all liked him..had been intended to get them back. Command of the Podkayne, the disposable lander that would make the lion's share of the headlines, had gone to Lang.
